

CHRISTIAN MONUMENTS OF CYPRUS

Under Turkish Military Occupation

“ And when they had gone through the isle unto Paphos, they found a certain sorcerer, a false prophet, a Jew, whose name was Bar-jesus: which was with the deputy of the country, Sergius Paulus, a prudent man; who called for Barnabas and Saul, and desired to hear the word of God. But Elymas the sorcerer (for so is his name by interpretation) withstood them, seeking to turn away the deputy from the faith. Then Saul (who is also called Paul), filled with the Holy Ghost, set his eyes on him, And said, O full of all subtlety and all mischief, thou child of the devil, thou enemy of all righteousness, wilt thou not cease to pervert the right ways of the Lord? And now, behold, the hand of the Lord is upon thee, and thou shalt be blind, not seeing the sun for a season. And immediately there fell on him a mist and a darkness; and he went about seeking some to lead him by the hand. Then the deputy, when he saw what was done, believed, being astonished at the doctrine of the Lord. ”

Acts 13:6-12

The Conversion of the Proconsul – Raphael, 1515-16

ABOUT THE PROJECT

This particular publication marks the beginning of an effort to portray the present condition of our religious monuments in the occupied part of Cyprus.

The Committee of Cyprus Occupied Municipalities, in its effort to demonstrate the destruction of the cultural heritage of Cyprus by Turkey, and especially the systematic desecration and looting of our religious monuments, has taken the initiative to produce the present map which seemed as a necessity in the light of the Cyprus presidency of the Council of the European Union.

Of the nine Cyprus occupied municipalities and 200 communities, access is allowed to only 177 of them. For the remaining 23, we barely know anything about and, thus, we assume that the destruction of our religious monuments is graver than what was initially estimated. According to credible local and international reports, 559 Christian churches, chapels and monasteries have been looted, demolished, destroyed or vandalized. For example, more than 100 churches, chapels and monasteries have been desecrated; thousands of icons have been vanished; many churches have been converted into mosques, others are used by the Turkish army as hospitals or military camps (one of them is used as a morgue), some churches have been converted into stables and more than thirty Christian monuments have been demolished. Moreover, 48 new mosques have been built in the occupied areas since 1974.

Turkey undoubtedly bears the sole responsibility for the destruction of our cultural heritage and the desecration of our religious monuments in the northern part of Cyprus. This is taking place at a time when Turkey, as a candidate country, negotiates its ac-

cession to the European Union, representing a continent which stands for civilization, culture and respect for human rights and cultural and religious diversity.

For purely technical reasons, the map of the occupied part of Cyprus is divided into seven sections. Each of these sections is accompanied by an index that enlists the religious monuments that appear on the respective map and describes the situation they are in today. The map can be found in its entirety at the end of the album. Despite the ambitious effort to enlist all churches, chapels, monasteries and religious, we understand that omissions might have occurred due to the fact that some areas have been proclaimed by the occupying authorities as "military areas" and access is prohibited.

This particular publication marks the beginning of an effort to portray the present condition of our religious monuments in the occupied part of Cyprus. We hope that this will serve as an incentive to all the elected Councils of the occupied communities to provide further information and contribute to its completion in the effort to give a more detailed account on the present state and condition of our religious monuments and archaeological sites.

We also hope that the presentation of this sad situation as appears on the map will increase awareness, sensitivity and concern about the overall behavior of Turkey against this part of Europe and the European culture that is being destroyed before our eyes.
